

Vehicle Tracking System

Know your vehicles' every move

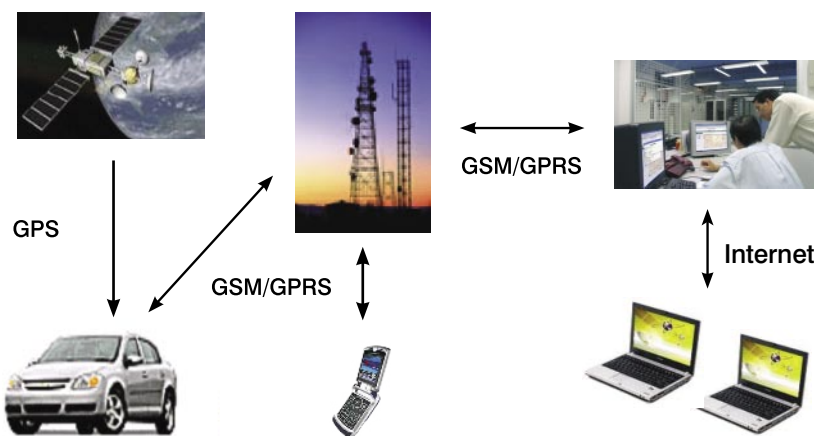

OmniTrac Vehicle Tracking System utilises Global Positioning System (GPS) to accurately pinpoint vehicle locations.

The system collects and produces detailed reports for analysing fleets as well as personnel's movement to increase productivity and efficiency and lower operational cost.

OmniTrac Vehicle Tracking System Overview

Areas of Application

- Fleet Management
- Real-time Vehicle Movement Tracking
- Managing Field Service Workforce
- Anti-Theft and Anti-Hijack Protection
- Recovering Stolen Vehicle

SARAWAK INFORMATION SYSTEMS SDN BHD

Features and Benefits

Manage, Monitor and Control Your Fleet

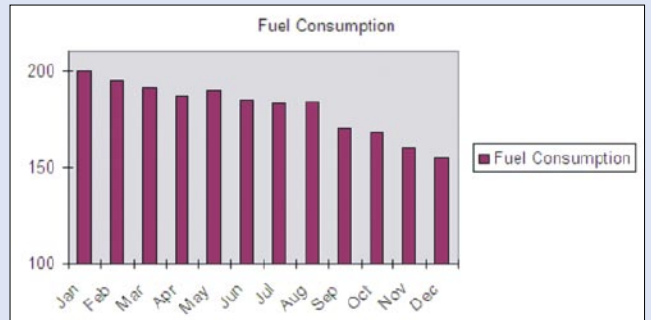

Smart-event based features:

- Vehicle exceeds a certain speed or traveling too slow
- Vehicle stationary over certain duration
- Vehicle moving beyond certain route boundaries or deviation from a pre-defined route
- Better supervision and control of vehicles movement

Reduce Operational Cost and Improve Customer Service

- Improve utilisation and efficient use of vehicles and field service personnel
- Reduce insurance cost because loss-risk factor is lower

Management Reporting

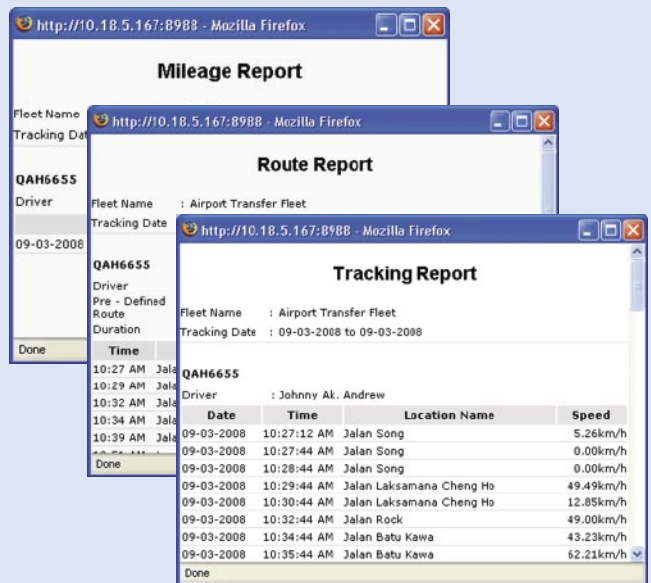

The activities of each vehicle can be logged and statistical reports generated for:

- Route analysis
- Resource scheduling
- Resource utilisation improvement
- Resolving disputes
- Restrict undesirable driving behaviour

The system provides the following details:

- Route taken
- Speed traveled
- Mileage / Distance traveled
- Stop / Idle activities

Exception reporting when a pre-set limit is breached such as boundary, speed, route, time, etc. Reports can be viewed online or received via email.

Emergency Alert to Enhance Security and Safety

Optional Services:

Real-time reporting enables fast response during emergency to pinpoint vehicle exact location.

Example

- Trigger an anti-theft alert if parked vehicle is moved
- Panic Button feature in the vehicle for emergency alert

Immediate Alert can be from:

- SMS or
- Phone call alerts

This solution was showcased during the World Congress on IT 2008
