

EMPOWER YOUR DATA WITH POWER BI

This training is highly recommended for:

- ✓ **Graduates** who are interested in building a career in Data Science, Human Resource, Resource Management, Finance, Economics, Business Intelligence.
- ✓ **Employees** who are aiming for career advancement as Directors, General Managers, HR Managers, Finance Managers, Sales Managers, Business Analysts, BI Professionals.

The Microsoft Power BI Training is designed for professionals who want to gain fundamental knowledge and basic skills for using Microsoft Power BI in analyzing and communicating using data. Microsoft Power BI is a suite of interactive data visualization business analytics tools that deliver insights throughout the organization.

In this course, participants will be taught how to create stunning, interactive, easy to use and beautiful reports using drag-and-drop features in an organized and attractive format. On top of that, participants will learn how to cleanse, transform and model data which can be further utilized to discover valuable information. This course will also expose participants to some analytical concepts before exploring the capabilities of Microsoft Power BI in analyzing data that can be gathered from multiple resources using the tool.

**“Bring your data
to life with
Power BI”**

ABOUT SAINS

SAINS Training Centre was established in 1993, in response to the increasing demand for IT training in Malaysia. The Centre is a certified training provider approved by the Ministry of Education as well as Pembangunan Sumber Manusia Berhad (PSMB). Corporates choosing to send their employees to our Centre can use the Human Resource Development Fund (HRDF) to pay for employee training. **SAINS won the Human Resources Development Fund Award 2013** in the Training Provider category.
